

CDP Overview

Thank you for submitting your 2014 CDP response. This Performance Review report shows how your company scored in comparison with other respondents and highlights areas for potential improvement.

Many companies struggle to keep up processes around energy bill and climate data collection, collating information and analyzing it in a comprehensive way. FirstCarbon Solutions (FCS) is CDP's Global Scoring and Sustainability BPO* Partner, and has more than 20 years' experience providing services, devising solutions and creating opportunities that get you out of spreadsheets and into saving resources like fuel, energy, manpower and, of course, money.

During your personalized Performance Review call, FCS will discuss some of the business systems that can improve your performance and create a more streamlined and cost-effective climate management system.

***BPO (Business Process Outsourcing):** Drive efficiency and reduce your costs by outsourcing specific business functions to FCS.

How Did You Do?

Disclosure Score:	83
Performance Band:	B

The **Disclosure Score** (0-100) measures the level of transparency your company has achieved through your response.

The **Performance Band** (A, A-, B, C, D or E) measures how effectively your company is addressing climate risk. (Performance bands are only calculated for disclosure scores above 50.)

Next Steps:

1. Improve your performance

FCS BPO Solutions: The first step on this journey to improve your score and your sustainability performance involves building a strong foundation. As CDP's Global Scoring and Sustainability Business Process Outsourcing (BPO) Partner, FCS has more than 20 years of experience providing services, designing solutions and creating opportunities that get you out of spreadsheets and into saving resources like fuel, energy, manpower and, of course, money. With BPO, you can drive efficiency and reduce costs by outsourcing specific business functions to FCS. Contact FCS at cdp@fcs-intl.com to take advantage of your BPO opportunities.

2. Improve your climate change and water reporting and strategies

CDP Reporter Services: Need help improving your climate change and water reporting and strategies? CDP's reporter services membership provides companies tailored support through a CDP account manager, as well as access to data, analytics software and exclusive events that empower companies to benchmark, and improve their reporting and performance. Contact reporterservices@cdp.net for details.

3. Assess and reduce climate change risk presented to your company from your supply chain

CDP Supply Chain: Want to assess and reduce climate change risk presented to your company from your supply chain? CDP's supply chain program is a simple annual process that results in consistent information from suppliers on climate- and water-related strategy and action. This fee-based service produces positive results from suppliers, eliminates duplicate requests, reduces questionnaire fatigue and provides a standardized platform for comparison. More than 60 companies currently work with CDP on their corporate supply chain. Please contact Sonya.Bhonsle@cdp.net to find out more.
