

GOVERNANCE

Transparent reporting and disclosure.

Why is this relevant

Non-financial reporting becomes increasingly important among clients, banks and regulators as they are looking for more standardisation in order to include non-financial drivers in their decision-making.

Description and approach

For many years now, Befimmo has paid particular attention to the reliability of the reporting process, and rigorous, accurate and transparent financial and non-financial communication. The Company has seen a growing interest in ESG and sustainability topics which are increasingly integrated into investment processes.

Befimmo has aligned itself with the most ambitious and complete tools and frameworks for sustainable development, by adopting concrete targets, codes of conduct, and conventions on environmental, social and governance aspects.

- ▣ EPRA SUSTAINABLE PERFORMANCE INDICATORS, P.136
- ▣ GRI CONTENT INDEX, P.140
- ▣ TASK FORCE ON CLIMATE-RELATED FINANCIAL DISCLOSURES (TCFD), P.154

Thanks to its thorough, standardised and transparent way of communicating, the Company was able to gain recognition and to receive high ratings for its non-financial reporting.

Looking ahead

Befimmo aims to further analyse, develop and improve communication in line with the reference standards in force. It will maintain its participation level in various surveys high and use the scores as feedback to keep improving its sustainability initiatives.

*"ESG reporting discloses sustainability and social responsibility of a company's operations and practices, and serves as a transparent means for companies to communicate their progress and performance for stakeholders. **The adequate level of transparency and the right partnerships are key to keep improving our ESG performance.**"*
